

Tennent's

Wellpark Brewery Refurbishment

**morris &
spottiswood**

LOCATION
Glasgow

DURATION
22 weeks

VALUE
£1.1m

After completing the refurbishment of Tennent's Brewery Visitor Centre in 2012, we successfully delivered their brand new Story Visitor Centre in 2018.

The centre was given a thoroughly modern look including ceiling rafts made from recycled cans.

The project involved a full strip out and subsequent fitout including installation of partitions, ceilings, windows, tiling, IPS panels, staircases, flooring, decoration and fire stopping.

In-house M&E works were also carried out which included lighting, power, fire alarms, door access system, data, ventilation and an air handling system.
